The Isy freestanding bath/shower mixer with diverter and shower set is part of a system that speaks the language of simplicity: it is not an effort of design but an idea which flows from water's own creativity and follows its plastic forms. Less is better, least is best: the utmost formal simplification for the first mixing tap in the world made with vanishing technology. Designed by Matteo Thun with Antonio Rodriguez.

The freestanding bath/shower mixer with diverter and shower set with 1500mm flexible hose has Zucchetti's exclusive installation system which features a levelling system and multi-point fixing. This ensures a perfectly perpendicular and rigid installation.

Spout projection of 193mm.
