The Pan sink mixer with pull out nozzle is Zucchetti's interpretation of the basic cylinder type mixer tapware. Pan begins with classic archetypes and goes on to develop completely original aesthetics and new types of taps. Designers Roberto and Ludovica Palomba have concentrated their attention on the joint between the vertical and horizontal elements. As in nature there are no cuts and weldings, so that the spout and handle have a soft connection to the body, like the branch to the trunk of a tree.

The Pan mixer with pull out nozzle features a one piece cast brass spout for the ultimate in strength and 1500mm flexible hose.

Spout projection of 230mm.
