The Pan freestanding bath spout is Zucchetti's interpretation of the basic cylinder type outlet. Pan begins with classic archetypes and goes on to develop completely original aesthetics and new types of taps. Designers Roberto and Ludovica Palomba have concentrated their attention on the joint between the vertical and horizontal elements.

The free standing bath spout has Zucchetti's exclusive installation system which features a levelling system and multi-point fixing. This ensures a perfectly perpendicular and rigid installation. Crafted from solid brass.

Spout projection of 340mm.
