

## Faraway Pool with Plates

9P1PE

**Overflow:** Yes

Distinguished by a graphical motif on its inner bottom surface the Faraway Pool is a floor-level mini pool that completely integrates functionality and aesthetics; exquisitely functional accessories transformed into geometric details of great beauty.

The floor-level overspill doubles the perimeter line of the tub and the fan generates a ripple that runs all the way across the water for the whole length of the tub: a unique form of wellness for indoor or outdoor living.

The Faraway pool is customisable to your requirement for lighting and spa options.

**WARRANTY**  
2 years
