

EMMA WALL HUNG BIDET INSTALLATION DIMENSIONS

1. Gala wall hung bidets should be installed using wall support bracket. Install frame ensuring that the mounting bolts are at the height as shown below.
2. Set the waste pipe outlet at the height and offset as shown below. It can be offset on the left or right side. **These dimensions allow for a lever operated pop up waste mechanism used in conjunction with a short inlet P trap.** You will need to consult the installer should another waste / trap combination be used.
3. Water points should be installed at the height and width as specified below.
