The Axis Extended Height Pin Lever Basin Mixer is a classic, cylinder type mixer tap. With specific attention paid to quality, all pieces are polished to a mirror-like chrome finish. Adaptable to many different applications, the Axis collection is a reliable and secure choice.

This particular series of mixer has some finishes in a PVD coating. PVD (short for Physical Vapor Deposition) is a way of coating products so that the finish has superior wear and corrosion resistance with a higher hardness than electroplating.
