Finish: White

Litres (at overflow): 1062L

Weight (net): 300kg

Overflow: Yes

Quadrat Minipool is an indoor/outdoor minipool with infinity edge. The edge has a big trim that merges with the surface of the water and is flush with the floor making the pool is very easy to get into.

A tub for the garden must be eye-catching and this is the reason behind Zucchetti's design of Quadrat. They have resized the height of the mini pool to keep big-impact essential proportions together, with ease of use. Thanks to its refined elegant geometrics, this mini pool becomes a small spa with chromotherapy and hydromassage.

Quadrat is also designed for inside use as it is perfect for contract and hotels or private homes. Its size has been studied to make it easy to move and position even indoors.

Quadrat is equipped with a bench and blower for lying down or sitting or a lower ledge with room for 3 or 4 people. Hydromassage blower hydro-colour with underwater spots and a water-heating system guarantee total wellbeing for the senses.
