

# BRIM

Designed by Ludovica + Roberto Palomba

# ZUCCHETTI.

## BRIM

Reassuring and essential, the brand new Brim collection designed by Ludovica + Roberto Palomba stands out for its compact design that uses a single lexicon to elaborate two different shapes: the circle and the square.

The outcome of these efforts is a complete series of single-lever mixers with harmonious proportions and delicately rounded lines, designed to combine aesthetic requirements with large-scale production. The breadth of the range ensures it meets all design and installation needs.

## FINISHES

To better meet today's different lifestyle needs, Brim is available in various finishes to complement a vast range of design trends. The entire Brim collection is available in chrome, brushed nickel and matte black finishes.

Chrome and brushed nickel are electroplated in-house at Zucchetti's modern Italian plant. This process is carried out with strict QA guidelines, ensuring perfect product quality and optimum durability over time.

The matte black finish is a powder coated finish that has proven corrosion resistance and exceptional durability.

**reddot** award 2019  
winner

*"The BRIM collection impresses with the sophisticated combination of geometric shapes that are fused into a stylish, modern design."*

- Red Dot Award Jury

*"The series merges opposing geometries into a balanced unity. The proportions of this tap collection are based on square and round basic shapes, visually blending with each other thanks to rounded edges, harmonious lines and smooth glossy surfaces."*

*“Brim is the result of research into shape that started a long time ago and of a follow-through that has teamed modernity and simplicity of geometrics. Brim is the synthesis and the sum of an industrial design project that began with the Soft mixer and has evolved according to ever-modern canons, managing to tune opposing geometrics to achieve perfect proportions.”*

- Ludovica+Roberto Palomba

## GREEN THUMB

BRIM is also greener than ever, made of lead-free brass and custom-designed components to limit water output, without undermining comfort.

Carefully designed, cross-cutting and accessible to the general public, BRIM is a high quality product that summarises all the design and production capacity of the Zucchetti brand.
